

### **Pro Shop News**

Now that summer has arrived we are glad to see everyone coming out and enjoying the facility. This is a fun time of year at our golf course, let's all take advantage of the season.

We have a couple things to let you know about in the next couple weeks. We have a **Callaway Demo Day** scheduled from 12 – 4 on **Thursday July 7**. It's a good chance to try some equipment as they have everything and also if there is anything you like they can build it right there and you can take it with you. It's quite a unique service. For anyone interested they are offering half hour fitting appointments that can be booked in the shop or you can just stop by and try some stuff.

On **Sunday July 17<sup>th</sup>** we have **Taylor Made** stopping by for a **Demo Day**. This is a great chance to try all of the new White R11 line. Enjoy the season!

**Robin Hutchinson, Head Pro.**
